

No Smoking Policy

We do not allow smoking on the nursery premises inside or outside as we do not wish to present smoking as acceptable. This applies to all members of staff, visitors and parents/carers.

We do not currently have any members of staff that smoke.

If in the future we were to recruit a member of staff who smoked, they would be required to change their clothes and wash their hands before entering the nursery rooms with children.

We respectfully ask parents and carers not to smoke directly outside the nursery gate.
